Assessment for Lung Cancer Screening

Presented by Southwest General
Tuesday, June 12, 2018, 11 a.m.- 2 p.m.

Located in Williams Conference Center, Rooms A-D,
in the basement of the L. Jon Schurmeier Medical Pavilion (Building C), on the hospital's
Main Campus, 18697 Bagley Road, in Middleburg Heights.

Worried that smoking has hurt your lungs OR are you a current or former smoker? If so, this event is for you.*

- Meet with a nurse practitioner who will assess your personal risk for lung cancer and order a low-dose CT scan lung screening, if you meet the screening criteria
Schedulers will be onsite to make it easy to schedule your screening
- Understand your own personal lung cancer risk factors and prevention strategies
- Access free smoking cessation, risk assessment and lung cancer prevention information
- Talk with nurses and pharmacists
- Take home information on Southwest General's Lung Nodule Center

For more information, call 1-877-SWG-BEAT (794-2328)

No registration required. Walk-ins welcome; first come, first served.

**The screening is for anyone, aged 55-77, who currently smokes, or has a history of smoking and stopped smoking in the past 15 years, and is concerned about the risk of lung cancer.*
